

Dear Allflex Customer:

We invite you to review the attached information to learn about our approved Allflex Radio Frequency Identification (RFID) tags, also known as Electronic Identification (EID) livestock identification tags by the United States Department of Agriculture (USDA) for use in the National Animal Identification System.

Both the Allflex Ultra High Performance Half Duplex and the Allflex Ultra Full Duplex tags have been validated for use in the National Animal Identification System (NAIS), making Allflex the only company to offer livestock producers two technologies (tags) that conform to the Animal Identification Number (AIN) Management supplementary identifier standards.

Attached you will find information on how to become an AIN Tag Manager/Reseller, which will allow you to directly sell AIN tags to your customers. Learn the steps necessary for Allflex USA to nominate your organization/company as an AIN Tag Manager/Reseller and how to accept the nomination from the USDA by reviewing the **AIN Tag Manager/Reseller Nomination and Approval Process** handout. This document highlights the critical steps necessary to complete the nomination process.

Next, review the **AIN Tag Manager/Reseller Order Options** handout to learn about the three order options available when fulfilling and shipping orders, the validation of Premises Identification Numbers (PIN) or Nonproducer Participant Numbers (NPN), and the steps necessary to report AINs to the USDA. **NOTE: If you are not an approved AIN Tag Manager/Reseller and you want to place an order for AIN Tags, there will be a validation fee of \$10 per order.**

Finally, fulfill AIN Tag orders by using the **USDA Approved Electronic ID (AIN) Tag Order Form** and submit orders to Allflex USA. E-mail orders to your Allflex Customer Service Representative or fax to Customer Service at (877) 456-3969.

Allflex encourages you to contact your Regional Allflex Manager or call (800) 972-TAGS with questions. Learn more about NAIS and the AIN Tag Manager/Reseller process by visiting the NAIS Web site at www.usda.gov/nais/.

Again, we thank you for your support and look forward to doing business with you in the future.

Sincerely,

The Allflex USA Team
